

## **Revised Guidelines for Parents of Classes 4 and 5**

Dear Parents,

This is to keep you informed that the **Half Yearly Examinations** will begin on the **26th of October, 2020** as scheduled.

However, there are **certain changes to the format** and manner in which exams will be conducted.

Please keep these points in mind and make appropriate arrangements accordingly:

1. The exams will be **conducted online**, and the students will need to login and begin the exam at the **specified time**.
2. All the questions will be of the **multiple choice answer/ objective type answers**.
3. There will be a total of **30 questions**, which will need to be attempted within **half an hour**.
4. **Each question** will be accessible for only **1 minute**, so the students will need to be quick in answering each question.
5. We will be following the **same pattern** that we had in the **Quarterly Examinations**.
6. There is no need to keep the answer sheets ready, as students will have to **submit answers online**.
7. **No re-exam option** will be available for those who do not attempt the exam.

Parents, we understand that these are difficult times, and we sometimes encounter difficulties that we had not anticipated earlier. We humbly request you to understand that we are doing our best, given the circumstances. We value your co-operation in carrying out the exams smoothly.
